# INTRODUCTION

Agresar Foundation was founded with the idea of being the change, you want to see. We firmly believe that helping hands are better than praying ones, hence we are trying to be small hope for people in need. For the last five years, our team is constantly working around the clock to bring happiness to life of others.

In today's rapidly transforming world, change is to only constant entity. When the whole world is running around fulfilling their needs and greed, there is a section of the society, whose screams for help are heard yet ignored by the masses. Our dream is to be their pillar of strength and help them live a dignified life and education is the only way to achieve it.

As our role Model, Swami Vivekananda said - "Education is the manifestation of the perfection already in man." Education is the only way we can transform today's youth and make our world a better place for the coming generations. With this vision in mind, we have started a plethora of activities and event for section of society, like Plethora of activities and events which are as follows.

## Activities

**Agresar Study Forum**

**Associated with**

**Swachha Bharat Abhiyan**

# “बे एके बे”

Mathematics is a subject which is useful for every individual throughout his life. But many of students are phobic of mathematics. We at Agresar aim to introduce mathematics to the students in a totally different and interesting way using activity based learning method. Our motherland is blessed with visionary mathematicians like Srinivasa Ramanujan Sir and to commemorate his birth anniversary, Every year we organize the “बे एके बे” event on 22<sup>nd</sup> December annually. To make math fun and entertaining we have made a 3 combination mega event.

“बे एके बे” is a combination of 3 mega events which are:

Table reciting competition

Infinity design contest.

Wall painting

Winners Stand

# TABLES ARE FUN !!

To make students fall in love with mathematics we arrange delightful table reciting matches in numerous schools across Nagpur city. There are multiple levels in the contest, each one increases the curiosity and joy of learning. We at Agresar believe in nurturing creativity. In the table recitation contest, we get stunned by “out-of-the-box” imagination of the kids from rapping tables to singing them at the tune of latest bollywood numbers, students relish and learn tables. At the end of the program, there are exciting prizes for the winners and participants to encourage and motivate them to work hard for a bright future.

Year	Number of Participants	Mode	Number of Schools
2019	Nagpur Region: 7000+	Offline	39
2020	Nagpur Region: 5000+ Other Regions: 8	Online	100+
2021	Nagpur Region: 8000+ Other Regions: 15 International: 2 (USA)	Offline Online Online	75

# Table Reciting Competition

दो  
एक  
दो

The street art initiative of Agresar endeavors to promote street art while ensuring Nagpur's charisma is manifested on its walls.

Artists around the city pick up their brushes and smudge the city walls with their imagination. Citizens blend the colors with formulas and bring alive masterpieces on the lane walls.

The initiative was a mega-hit in its first edition itself and we proudly gave 76 walls a makeover by spreading hues of mathematics on them.

**Theme - Zero to Infinity**

**Place - Dharampeth Science College, Ambazari, Nagpur**

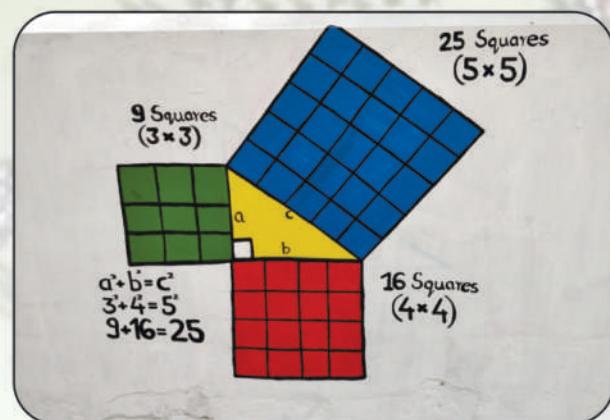

# WALL PAINTING

Dr. Punjabrao Deshmukh Krushi Vidyapith Wall Opposite VNIT Nagpur.

Keshav Nagar Madhyamik Vidyalaya, Jagnade Square, Nagpur.

R.S. Mundle College, Dharampeth, Nagpur.

In 2021, we thought of adding one more innovative element to our “**दो एक दो**” event, We initiated a design and artwork competition named “Infinity Design & Painting Contest” The world is infinite and so is art.

This contest gave a platform to numerous artists and art lovers to display their skills.

- ◆ “बे एक बे” 2021 was a milestone in Agresar’s journey of social service.
- ◆ Agresar Foundation collaborated with Nagpur Municipal Corporation to successfully organise “बे एक बे” 2021 & made it a grand event.
- ◆ Celebrating 75 years of the country’s Independence “The Amrut Mohotsav“ came to life where more than 8000 students from 75 schools across Nagpur were present in Chitnis Park, Nagpur.
- ◆ In spite of such a massive scale of event which was India’s biggest celebration of maths day , all the covid restrictions were followed and proper measures were taken to prevent any kind of uncertainties
- ◆ All the students and volunteers together recited tables from 2 to 30 making it a landmark in Agresar’s journey.
- ◆ The students were seated in such a way that by a bird’s eye view it gave us a “75” figured pattern at the venue.

Nagpur Center Chitnispark Stadium around 5000 Students

# ACHIEVEMENTS

## Year 2021

By Left (Atharya Kawle, Bhavesh Ashtankar, Divyank Selokar, Sujal Ghogare, Om Choudhary, Sakshi Punjabi)

By Left (Riddhi Thorat, Om Choudhary, Saloni Dhole, Prashik Bhagat, Saksham Hatmode, Divyank Selokar)

## Year 2019

By Left (Krutika Harde, Vinit Tondere, Saksham Hatmode, Vansh Titarmare, Girish Daff, Tulsi Devangan)

## OUR GUESTS

Over these years, since the start of the “**बे एके बे**” journey, we have been very fortunate to host some very inspiring personalities who guided us the way forward through sharing their valuable experiences.  
Some of them are ....

**Mr. Amitesh Kumar**  
Commissioner of Police (Nagpur)

In my lifetime. I have never seen such table recitation activity. We all know, TABLES are very important in our life and because of such events the confidence of children gets uplifted towards mathematics.

**Mr. Dayashankar Tiwari**  
Ex-City Mayor (NMC, NAGPUR)

Learning tables improves your calculations which in turn improves your decision making to take better social, cultural and strategical decisions.

**Mr. Rahul Rai**  
Director of Calibers

First of all I appreciate the efforts taken by Agresar Foundation to create awareness about maths through their activities and this program on the occasion of National Mathematics day.I believe that the greatest subject in the world is mathematics with the help of maths only our ancestors were able to build the modern world we are living today. If we are good at maths then we can achieve anything because Maths is logical and is the basics of all subjects in the world.

- ◆ International students from various countries will participate this year virtually.
- ◆ We plan to bring around 15000 students together in the final event.
- ◆ Students together will celebrate Mathematics Day by reciting tables from 2 to 30.
- ◆ This event will help students to enhance their interest in Mathematics.
- ◆ Around 10000 students will be participating in the competitions which will be held in their respective schools.
- ◆ This year the offline competitions will be organised in Nagpur and Pune.
